Our Business

We have over 18 years in the Business and we're still going strong. T.E. Music manages the artist's career and assists them with all legal and business matters. As we consult, we educate, giving each Artist the tools necessary to be capable of making decisions on their own.

Songwriting, tracks, production and vocal coaching are some of the many services available to any Artist. Some of the people we've worked with include 'Something for the People', Kenny Whitehead of the 'Whitehead Bros.', Rodney Jerkins, veteran Larry Gold and Buckshot from 'Blackmoon'.
